

TAFT MIDDLE SCHOOL TRAFFIC FLOW

In order to get cars quickly and safely through the parking lot, please adhere to the following traffic pattern.

- 1) Traffic should enter off E Avenue using both lanes when possible.
- 2) Do not drive through the Bus Loading Area. This creates a great risk of a student being struck by a vehicle. Instead, turn left into either of the two large parking areas.
- 3) When you enter the parking area, the right lane is reserved for loading and unloading students. Please pull forward as far as possible. Once your child is unloaded, you can pull into the left lane to leave the parking area.
- 4) The left lane is the through traffic lane. Please do not stop and wait for students in the left lane. This creates a traffic jam of cars behind you.
